

EPARA TECH NET

Welcome, it is 8:30 pm, so it's time for the weekly edition of the EPARA Tech Net. My name is Mike and my call sign is WR8TH. I will act as Net Control this evening.

At this time, is there anyone with any emergency or priority traffic? If you have emergency or priority traffic, please call Net Control now.

This net is brought to you through the courtesy of the Eastern Pennsylvania Amateur Radio Association and The Monroe County Office of Emergency Management, whose repeater, WX3OES, is being used on a frequency of 146.865 MHz with a PL of 100.

The Purpose of this Net is to further the technical Knowledge of all who participate. Topics and related questions pertaining to Amateur Radio, Computers and Electronics in general are appropriate for this Net. This Net is open to all licensed amateurs, regardless of club affiliation and everyone is encouraged to participate. The sharing of our collective knowledge and experience will benefit everyone involved with this Net.

This is an informal, directed, Net and all calls should be made via Net Control. Please do not break or interrupt unless you have an emergency or priority traffic.

When checking in, please call Net control, then let the carrier drop to avoid doubles. Then state your call sign (slowly and phonetically), your name, location, and if you have any traffic.

I will now call for check-ins, any station wishing to participate in this Tech Net please call Net Control now.

TOPIC/QUESTIONS

One last call for stations wishing to check-in to the Net.

At this time, I would like to thank everyone who participated this evening, as well as the Monroe County OEM for the use of their repeater.

There were a total of ____ check-ins this sessions. I will bring the net to a close at _____pm and return the repeater to normal use. This is WR8TH saying good night and 73's to all.
